CONTINUING EDUCATION ASSOCIATION INTERNATIONAL

February 17, 2015

Dear Mrs. Maner,

Congratulations on writing your screenplay and Artie, your children's book! You have always been interested in education and youth. I remember when we first met in the early 90s. I was Director of Continuing Education (CE) at San Jacinto College North. We had a summer swimming program for kids which need leadership. You took over that program and made it the largest summer program of all the San Jacinto College campuses! Additionally, you supervised our lifeguard training classes at the college. You talked to thousands of students in our local schools about the value of learning proper water safety.

Even after I became president of the college, you and I continued to work together for the betterment of youth. You taught a "Working With People" class for Continuing Education. Also, you one of my English professors developed a "study skills" class for parents. I remember how an elementary principal at one of the schools in Galena Park ISD was so very much impressed with the guide!

I wish you much success with your book and hope children in both public and private schools in the area and the state of Texas have the opportunity to read it.

Sincerely,

Charles Grant, Ph.D.
Chairman & CEO
